What is the Nonpublic School Personnel Report?

The Nonpublic School Personnel Report is part of the Registry of Educational Personnel (REP) and is managed by the Center for Educational Performance and Information (CEPI). CEPI resides within the Department of Technology, Management and Budget and is responsible for the collection and reporting of data about Michigan's schools. CEPI manages these educational data electronically in the Michigan Education Information System (MEIS).

Data compiled via the Nonpublic School Personnel Report will be used to meet the requirements of school safety legislation. Effective January 1, 2006, Michigan law requires that criminal history checks be conducted by the Michigan State Police and the Federal Bureau of Investigation for all regular and contracted employees hired or assigned by public and nonpublic schools.

The Nonpublic School Personnel Report is designed to collect basic elements relating to school personnel that are required for the Michigan State Police to conduct criminal history checks. Data are entered and edited online. These data elements include: first name, last name, Social Security number, date of birth and gender. Nonpublic school personnel data must be entered and edited via the Internet each fall.
