This will be tabled as the rules subcommittee will be addressing this issue.

Electronic Prescription Update

Rae Ramsdell indicated that Board comments were sent to the DEA indicating the concern that physicians may not be willing to comply with the rule, but that the spirit of the legislation is acceptable to the Board. Further, Laura Shaw commented that this legislation will take at least another year to become finalized.

NABP District IV Meeting

David Bach referred the Board to information provided at today's meeting regarding the NABP District IV Meeting to be held in Ohio in November. Sara Fakhoury and Laura Shaw expressed a desire to attend.

Criminal Background Checks

Rae Ramsdell indicated that 2006 legislation prompted the new licensure requirement that all new licensees or individuals applying for re-licensure submit to fingerprinting and background checks. She stated that the reason this did not become effective until October 1, 2008 was due to the fact that the Michigan State Police (MSP) had to update their computer technology in order to be able to handle the volume of licensees which would be placed into their system. Ramsdell also explained MSP's "wrap-back" system which is in place to advise the Department if a licensee has a conviction in the future.

Ramsdell also directed the Board to the Legislative update memo provided.
