FISCAL YEAR 2013

CHILD AND ADULT CARE FOOD PROGRAM

FAMILY DAY CARE HOME SPONSOR MEMORANDUM #12

TO: Family Day Care Home Sponsors

FROM: Kyle L. Guerrant, Director
Office of School Support Services

DATE April 8, 2013

SUBJECT: Adult Day Care Center Eligibility and Licensing/Approval

The adult component of the Child and Adult Care Food Program (CACFP) was authorized by The Older Americans Act Amendments of 1987 and codified in 7 CFR 226.19a. The purpose of this memorandum is to provide updated guidance relating to the adult day care component of CACFP.

This guidance is intended only for the purpose of administering the adult component of CACFP for those centers eligible to participate.

Center Eligibility
Adult day care centers are considered eligible institutions for reimbursement for meals served to persons age 60 or older, or to chronically impaired disabled persons in a non-residential group setting [42 USC 1766(o)(1)]. For purposes of determining CACFP eligibility, it is sufficient that such a center cares for elderly or functionally impaired adults. It is not necessary that the majority of the clients receiving care in the center be functionally impaired.

The purpose of the adult day care component of CACFP, as stated by congress in the Conference Report (H. Rept. 100-427) on the Older American Act Amendments of 1987, is to "assist its participants to remain in the community, enabling families and other caregivers to continue caring for an impaired individual at home." It is clear that Congress intended CACFP benefits to be available to serve individuals attending adult day care while remaining in the community. Therefore, facilities
that provide residential care are not eligible to participate in CACFP with respect to those residential clients. This would include, but is not limited to, hospitals, nursing homes, residential facilities for the mentally ill or physically handicapped, convalescent homes, apartment complexes designed only for the functionally impaired that provide meals and full-time care, and hospice programs.

Additionally, sheltered workshops, vocational or substance abuse rehabilitation centers, social centers, or other types of centers do not qualify as adult day care centers for purposes of CACFP participation, since they are not operated primarily to provide day care to elderly and disabled adults in order to avoid premature institutionalization.

**Licensing/Approval**

In order to participate in CACFP, adult day care centers also must be licensed or approved by federal, state, or local authorities to provide adult day care services [42 USC §1766(o)(2)(ii)]. Tribal authorities are considered local authorities for purposes of licensing or approval. “Approval” is granted by a state or local authority when an adult day care center meets written standards or criteria which assure that the individuals are receiving care in a center which has been determined by authorized state or local officials to provide a safe and healthful environment.

Operation of a center by a state, tribal, or local government is tantamount to “approval.” However, the center must be operated and funded by the state, tribal, or local government. This may be confirmed by a written assurance by a state, tribal, or local official.

Generally, the simple presence of public funding in an adult day care center does not constitute “approval.” Receipt of federal or state funds may constitute “approval” only when standards are established to ensure a safe and healthy environment for participants and funding authorities determine that, in order to receive the funds, these standards must be met. Receipt of Medicaid funds by an adult day care center meets these requirements and constitutes state approval for purposes of CACFP participation.

Those centers receiving public funding are required to implement a financial management system which can show that other public funding is not being used to support CACFP meals. Additionally, adult day care centers purchasing meals from other than clearly commercial vendors must make a determination that the meals they are receiving are not supported by other public funds. MDE encourages such centers to preserve other public funding for services they administer outside the meal service and not allow such funding to interfere with the integrity of their CACFP claims.

FDCH Sponsors should direct any questions regarding this memorandum to the CACFP Office at 517-373-7391.
