Candidates seeking supervisor of special education approval must have completed:
   a.) 12 semester or equivalent hours of graduate credit in a program designed to assure competencies in the attached areas

Supervisor of Special Education training programs are based upon competencies. The State of Michigan requires that all out-of-state trained directors or supervisors of special education have minimal competencies verified by a university/college (special education administrative trainer). While a person is not expected to be an expert in all of these areas, the prospective candidate should have had some experience with all the competencies and your evaluation can help determine what further skills might need to be developed. Even though this will require some time on your part, we feel this is necessary to make sure that persons entering Michigan have equivalent training.
