# Primary Activities & Standard Industrial Classification (SIC) Codes

Federal regulations require sites with **primary activities and/or SIC codes** that fall under any of the eleven categories of industrial activity, defined at 40 CFR 122.26(b)(14)(i)-(xi) except category (x) to obtain permit coverage or certify a condition of no exposure. The facilities classified with the following **primary activities and/or SIC codes** are required to obtain NPDES storm water permit coverage or certify a condition of no exposure.

# **Primary Activities:**

- Hazardous waste treatment, storage, or disposal facilities (including those that are operating under interim status or a permit
  under Subtitle C of the RCRA).
- Landfills (active, inactive, or closed) and land application sites that receive or have received industrial wastes.
- Steam electric power generating facilities, including coal handling sites.
- Wastewater Treatment Facilities (or other treatment works) with a design flow of at least 1.0 million gallons per day (MGD).
- Facilities involved in the recycling of material, including metal scrapyards, battery reclaimers, salvage yards, and automobile
  junkyards, including, but not limited to those classified as SIC 5015 and 5093.
- Transportation activities at facilities classified by the SIC codes listed in the box on Page 5 are required to obtain coverage if the facility conducts any vehicle maintenance and/or it operates maintenance shops, equipment cleaning, or airport de-icing. Vehicle maintenance means fueling, vehicle rehabilitation, mechanical repairs, painting, and lubrication. Includes SIC groups 40-45, (except 4221-4225) and 5171. For a complete description see listing under Transportation (box, Page 5).
