

# MOBILE PHONES

STOP ILLEGAL ROBOCALLS

## USE CALL-BLOCKING SERVICES

Call-blocking features such as call block, caller ID, call rejection, and others may already be installed on your phone or provided by your service provider.

Please note: call-blocking features may also stop legitimate calls.

## CALL YOUR MOBILE PHONE SERVICE PROVIDER

Talk to your service provider to see what call-blocking services they offer.

## DOWNLOAD AN APP

Download a robocall-blocking app (some may charge a monthly fee). Calls may be blocked, ring silently, or go directly to voicemail.

Please note: some apps request access to your contacts or may sell or share some of your personal information.

## ADD YOUR NUMBER TO THE DO NOT CALL REGISTRY

Add your phone number to the [National Do Not Call Registry](https://www.donotcall.gov) (donotcall.gov) or by calling 888-382-1222.
