ROBOCALLS

WHAT YOU NEED TO KNOW

Answering unsolicited calls and pressing numbers verifies that your number is a working number, which results in more calls. If you think a call is real and you're concerned, search for the company's phone number on their website and call that instead of the number provided by the robocaller.

PERSONAL INFORMATION

Never provide your personal information including:

**name • address • birthdate • PIN numbers
account numbers • passwords • Social Security Number**

WHY DOESN'T THE DO NOT CALL REGISTRY STOP ROBOCALLS?

The Do Not Call Registry is designed to stop sales calls from real companies that follow the law. Scammers don't care if you're on the Registry.

The Federal Communications Commission and Federal Trade Commission (FTC) do not and cannot block calls.
