

Khale Cannabis Company

AU-R-001014

This entity qualifies for the Bronze level tier of
the Social Equity All-Star Program

Social Equity Plan - Xhale Cannabis Company, LLC

My Social Equity Plan is to reach out to individuals from disproportionately impacted communities and hire them to my facility. The area that I will focus on is the City of Bay City. Bay City is the city where my marijuana facility will be located. I will provide mentorship programs to the individuals that qualify as a disproportionately impacted individual within this program. We will also partner with other business licensees who are qualified as well with the MRA's Social Equity program. Working with other businesses will assist with building up the community.

Giving back to the Bay City School district is another thing we want to do as well. We will reach out to the school board and collaborate with them concerning us providing book bags and supplies to the students in their district. We would also like to have a food drive for the homeless within the community. Each year we will give scholarships to kids within the community towards their college. I am currently a member of the Bay Area Chamber of Commerce.
