MI School Data User Migration

Beginning in summer 2020, all MI School Data secure users will need a third party MILogin account with the same email address as their current MI School Data account to access secure data. Users who don't already have this type of MILogin account must create one prior to the migration to retain access to secure data. If this is not done prior to the migration, users will need to fill out a security form and request a new account. Please refer to the MILogin/MI School Data Instructions for information on how to set up your MILogin account now to ensure continued access to your data.
