

SECTION I OVERVIEW

THE OPPORTUNITY

The Michigan Department of Lifelong Education, Advancement, and Potential (MiLEAP) is excited to offer Universal FAFSA Challenge awards to support districts in adopting a local universal FAFSA policy and implementing FAFSA completion support in their high schools and local communities.

MiLEAP recognizes how critical it is for prospective college students to complete the [Free Application for Federal Student Aid](#), or FAFSA form. The FAFSA is needed to access federal scholarships and loans and is required for students to receive up to \$27,500 through the [Michigan Achievement Scholarship](#)—including a pathway to earn a skill certificate or associate degree tuition-free at their local community college through the [Community College Guarantee](#).

In the 2023-24 school year, 47 percent of high school seniors completed the FAFSA. We can do better!

A dozen states across the country have adopted universal FAFSA completion policies with supports for students, families, and high schools. These policies require students to complete the FAFSA before high school graduation (while allowing for student exemptions in some circumstances). We're seeing early evidence this strategy is working. Early adopters have seen increases in FAFSA completion, high school graduation, and college going. Learn more about other states' policies from the [National College Attainment Network](#).

BACKGROUND

Postsecondary education and training play an essential role in upskilling Michiganders to build a globally competitive economy. Recognizing this, the State set a postsecondary attainment goal of having sixty percent of working-age Michiganders with a postsecondary credential by 2030. Data indicates that a senior who completes the FAFSA is 84% more likely to enroll in postsecondary education, and 90% of high school seniors who complete the FAFSA immediately enroll in postsecondary education programs. The State of Michigan is providing financial incentives to support schools as they prioritize FAFSA completion. Now, more than ever, it is critical that schools and districts create FAFSA completion goals and monitor them regularly, build shared ownership, establish partnerships, and spread awareness. Historically, postsecondary students are most likely to cite financial issues as the key reason for dropping out. Therefore, MiLEAP is offering a funding opportunity to Michigan public local school districts or a public school academy, or community district who will require all students to complete the Free Application for Federal Student Aid (FAFSA) to graduate from high school, except for reasons that exempt a student from completing the FAFSA.

PURPOSE

The purpose of the Universal FAFSA Challenge is to encourage districts to adopt a universal FAFSA policy. Districts that receive funds must update their graduation requirements to require all seniors to either complete the FAFSA or complete a waiver confirming a reason that exempts a student from completing the FAFSA. FAFSA Challenge funds will be awarded by January 31, 2025.

A district shall exempt a student from the requirement to complete the FAFSA if any of the following are met:

1. The student's parent or legal guardian, or the student if the student is 18 years of age or older, is an emancipated minor, or is an unaccompanied youth, has submitted a parental waiver (obtained by a standard form provided by MiLEAP) to the district exempting the student from completing the FAFSA.
